

HOFFMAN MODEL RHPG-17

STEAM GENERATOR

DESIGNED FOR EASY OPERATION

and servicing including large status gauges

STAINLESS STEEL CONSTRUCTION

for long lasting durability and ease of cleaning

STEEL BOILER TANKS

are pressure tested to 300 PSI for the ultimate performance and safety

OPTIONAL ACCESSORIES

Steam wand and cart

INDUSTRIAL GRADE HARDWARE

allows us to offer a machine with unmatched reliability

MADE IN THE USA

Built and assembled in the USA by our expert technicians

AUTOMATIC WATER

includes water pump to never run out of water

CUSTOMER SERVICE

provided by the same expert technicians

CERTIFIED SAFETY AND COMPLIANCE

At the heart of each Hoffman machine is an ASME certified boiler for safety and compliance with insurance regulations

MADE IN THE USA

INDUSTRIAL GRADE

HIGH PRESSURE

EASY TO USE

CERTIFIED TOUGH

SPECIFICATIONS

DIMENSIONS

Product Dimensions – in. (mm)	22½" x 19½" x 36" (572 x 495 x 914)
-------------------------------	--

Shipping Dimensions – in. (mm)	28" x 28" x 52" (711 x 711 x 1321)
--------------------------------	---------------------------------------

APPROXIMATE WEIGHT

Net Weight – lb. (kg.)	220lbs (100kg)
------------------------	----------------

Shipping Weight – lb. (kg.)	260lbs (118kg)
-----------------------------	----------------

POWER & ELECTRICAL

Electrical	220v 1P or 3P
------------	---------------

Elements – watts	12,000 watt
------------------	-------------

Power Consumption – amps	13 amps
--------------------------	---------

Electrical Approval	UL
---------------------	----

WATER

Water Capacity – gal. (L)	6 (22.7L)
---------------------------	-----------

Low Water Indicator	Sight glass
---------------------	-------------

Tank Construction	Steel
-------------------	-------

STEAM

Steam Connector Type	1/4" NPT
----------------------	----------

Steam Temperature – F (c)	331°F (166°C)
-----------------------------	---------------

Operating Pressure – psi (Bar)	Up to 90 psi (6.20)
--------------------------------	---------------------

MISC

Boiler Permit Required	ASME
------------------------	------

Warranty	3 year from date of sale
----------	--------------------------

Country Of Origin	USA
-------------------	-----

IDEAL FOR

- General steam boiler applications
- Upholstery including auto trim and yacht manufacturing

ELG4 FEATURES

- A.S.M.E. and U.L. approved
- 6 gallon capacity
- Saves times, boosts productivity
- Develops 70–90 psi steam
- Safety shielded sight glass
- 220 Volt single phase or three phase
- Auto reservoir refill with pump
- Fast temperature/pressure recovery
- Adjustable thermostatic controls
- Auto low water cut off
- Total operator control
- Rust-inhibited pressure tank
- Rugged long-life stainless-steel cabinet (no rust/corrosion)
- Low maintenance
- Easy to use
- Fingertip or foot switch control
- Optional steam wand and cart
